

*Yes, we are hiring!*

## Prosthetist & Orthotist

Min. 1 year of experience  
With fitting MYOELECTRIC PROSTHESES

### Who we are?

Life and Limb is a MedTech company incorporated in 2020 where we innovate, design, and engineer biomedical devices. Our focus revolves around prostheses solutions that are cost-effective, state-of-art and custom-built for each user. We aim to revolutionize this domain with innovative solutions that are accessible, affordable, and aspirational.

We have done pilot testing for our first product — BIONICLI<sup>®</sup>, a myoelectric prosthetic hand with fourteen grip patterns that can achieve more than 15% of the activities of daily living. We need your help in managing the finances of the company.

The Prosthetist & Orthotist will develop an inner liner or prosthetic socket for the upper limb amputation. He or she will assist in the patient's needs and physical abilities; design, fabricate, fit, evaluate and repair prosthetic sockets (and the artificial limbs) and orthotic devices (braces and supports).

### As a certified Prosthetist and Orthotist, you will:

- Fabricate and fit prosthetics and orthotic devices
- Provide the required training for the patient.
- Assess the clinical/ physical needs of the patient, including myoelectric or EMG mapping, strength and fitment, and performance assessment.
- Diagnose conditions and develop a treatment plan to restore movement, reduce pain or improve mobility.
- Record by entering data into the patient's paper and electronic file.
- Communicate by conversation, correspondence, email, and telephone with referring physicians and/or other health professionals/clinics for the pilot patients.
- Provide information needed for patient to get funding from third-party payers/rehab. centers.

### Qualifications

BPO with a minimum of 1 year of experience (and/or MPO degree) is a must. Certification must also comply with the following:

- An accredited clinical prosthetic and orthotic degree certificate.
- A min. of 96-week internship under the supervision of a certified prosthetist or orthotist.

### Personal characteristics and skills:

Prosthetists and orthotists need the following characteristics:

- the ability to work with a variety of people, including clients, physicians, physiotherapists, nurses and technicians
- patience, empathy and the ability to motivate and encourage people
- strong analytical and problem-solving skills
- time management and organizational skills, good oral and written communication skills
- the ability to concentrate and pay close attention to details.

### What's next?

The position is for the Delhi/NCR location with one month of probation, requiring you to sign a confidentiality/non-disclosure agreement and an employment agreement before starting the work.

Are you ready for a wow-ing experience and help us dig deep into the process of building a great team? We need a quick response from you; drop a mail to [admin@lifeandlimb.ai](mailto:admin@lifeandlimb.ai) with your one-page resume/portfolio.

Life and Limb is an Equal Opportunity Employer!
